

# Monthly Indicators

## October 2019

In October, mortgage rates increased slightly from the three-year lows seen in September. While the Federal Reserve reduced the federal-funds target rate by .25%, this decline was widely expected and largely factored into mortgage rates already, which are still approximately 1% lower than this time last year. Fannie Mae is predicting that continued low rates, and possibly lower rates, are expected in 2020.

New Listings increased 8.7 percent for Single Family homes but decreased 9.9 percent for Condominium homes. Pending Sales increased 7.9 percent for Single Family homes but remained flat for Condominium homes. Inventory decreased 8.9 percent for Single Family homes and 18.3 percent for Condominium homes.

Median Sales Price decreased 5.5 percent to \$732,000 for Single Family homes but increased 3.2 percent to \$515,800 for Condominium homes. Days on Market increased 24.3 percent for Single Family homes but decreased 4.5 percent for Condominium homes. Months Supply of Inventory decreased 14.5 percent for Single Family homes and 11.9 percent for Condominium homes.

As we begin the slower time of year for home sales, historically low mortgage rates will continue to support buyer demand and may create additional lift to home prices as excellent affordability gives buyers the ability to offer more to secure their dream home. Throughout much of the country, the continued low level of housing inventory also continues to constrain sales activity from where it would likely be in a balanced market.
